**BEFORE THE BOARD OF DIRECTORS
TRI COUNTY ECONOMIC DEVELOPMENT DISTRICT/
REGIONAL TRANSPORTATION PLANNING ORGANIZATION**

IN THE MATTER OF ADOPTING THE REGIONAL) RESOLUTION 2022-010
2023-2028 TRANSPORTATION IMPROVEMENT)
PROGRAM (TIP) FOR THE NORTHEAST)
WASHINGTON REGIONAL TRANSPORTATION)
PLANNING ORGANIZATION)

WHEREAS, the Northeast Washington Regional Transportation Planning Organization is required by Washington State law (RCW 47.80) to create, at least every two years, a six-year Regional Transportation Improvement Program for the Tri County region; and

WHEREAS, the Northeast Washington Regional Transportation Planning Organization Technical Advisory Committee and the Tri County Economic Development District Board of Directors have reviewed the 2023-2028 Regional Transportation Improvement Program for the Tri County region; and

NOW THEREFORE, IT IS HEREBY RESOLVED that the Northeast Washington Regional Transportation Planning Organization's Board of Directors does hereby approve and adopt the 2023-2028 Regional Transportation Improvement Program for the Northeast Washington Regional Transportation Planning Organization.

Attachment: NEW RTPO 2023-2028 Regional Transportation Improvement Program.

APPROVED and **ADOPTED** in Colville, Washington, this 28th day of September, 2022.

ATTEST:

Greg Young, TEDD Board Chairman

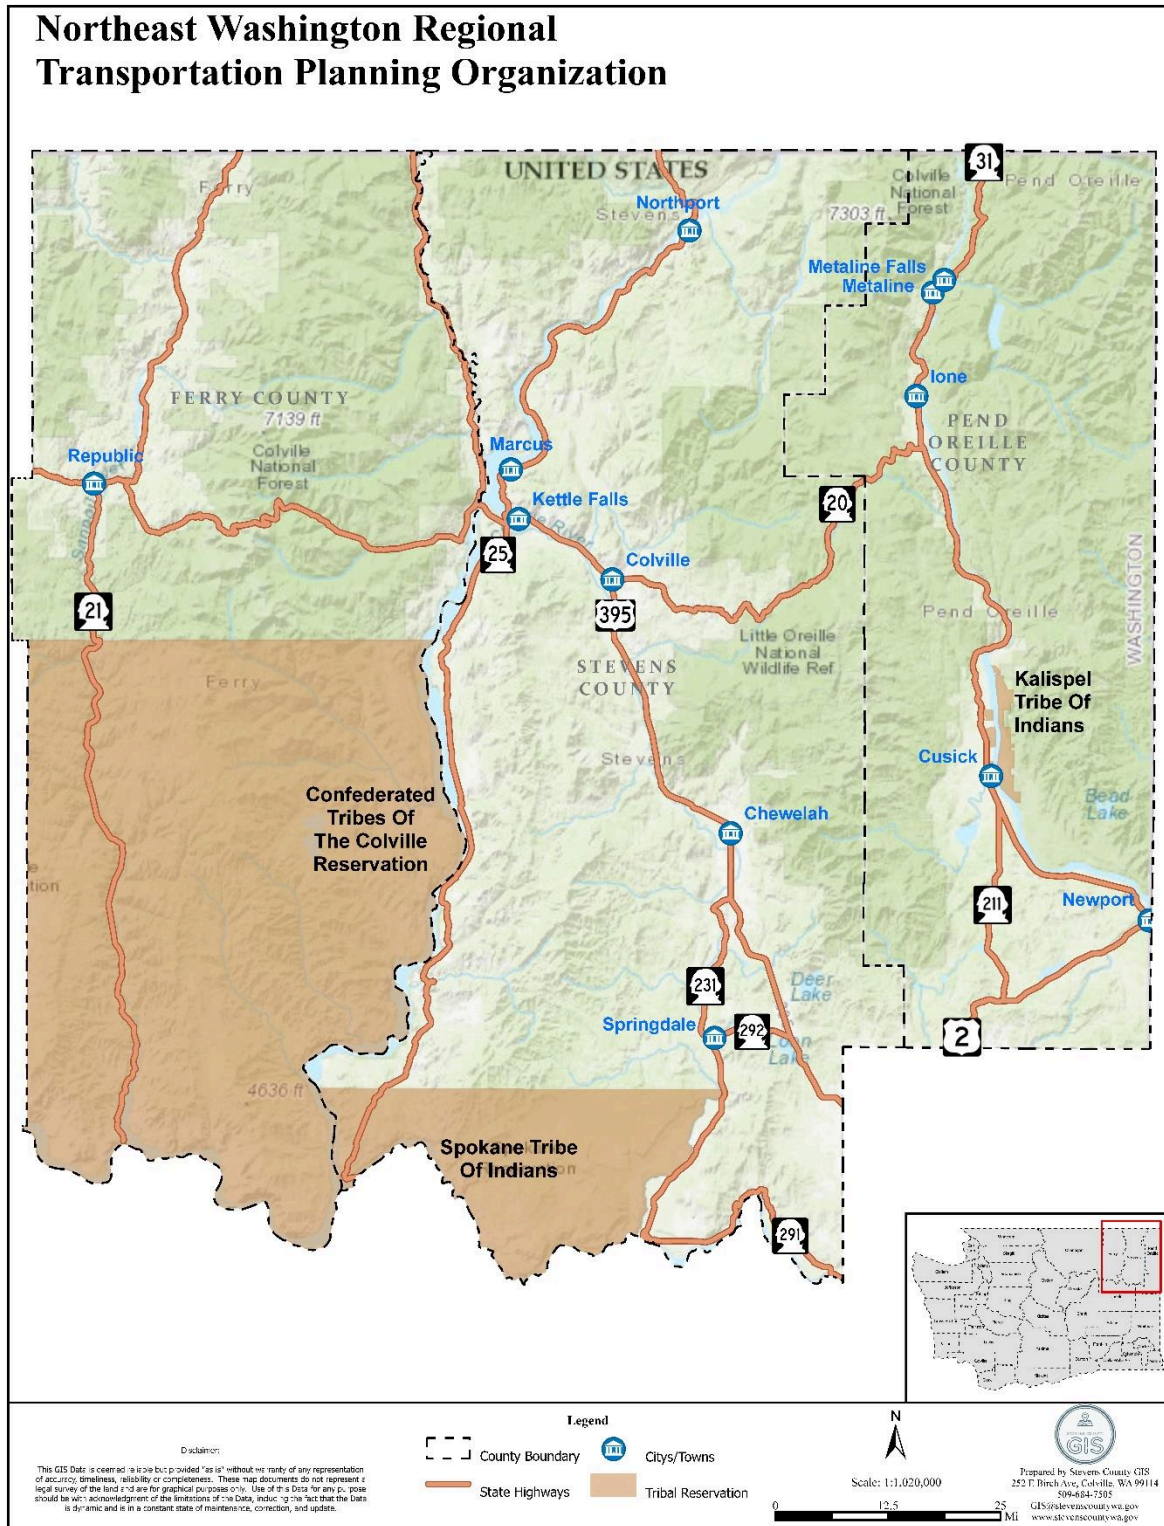

Nathan Davis, TEDD Board Secretary

NEW RTPO Planning Map

Introduction

Background

The Northeast Washington Regional Transportation Planning Organization (NEW RTPO) was established in 1990 to serve Ferry, Pend Oreille, and Stevens counties. Members of the NEW RTPO represent the general purpose local and special district governments in the tri-county region. Tri County Economic Development District (TEDD) serves as the lead agency for the NEW RTPO.

The principal mission of the NEW RTPO is to provide northeast Washington with a Regional Transportation Plan (RTP) that fosters a positive quality of life, encourages economic development, and provides a safe, reliable, efficient system to transport people, goods, and services.

Purpose of the Regional TIP

As the NEW RTPO, state regulations require the development of a six-year Regional Transportation Improvement Program (Regional TIP) that must be updated, at least, every two years. The purpose of the Regional TIP is to outline the region's transportation projects and associated financing plans based on demonstrated consistency between project implementation and regional planning goals.

The TIP includes projects such as pavement overlays, chip seal, roadway reconstruction or new construction, bridge replacement or repair, signal systems, safety enhancements, bicycle and pedestrian facilities, and transit improvements.

The Regional TIP is compiled from the 2023-2028 Six-Year Transportation Improvement Programs (Local TIPs) that are developed by NEW RTPO member jurisdictions. The State of Washington requires cities, towns, counties, and tribes to submit a list of projects annually; the list constitutes a six-year financial plan for transportation project implementation. When entered into the state system, these projects are identified as either (P) planned or (S) secured. Projects listed as (P), are planned projects listed in the Local TIPs but do not have secured funding. This list identifies needed improvements in the region that will receive priority consideration when funding is sought or is already secured. Appendix A lists projects that have secured funding, while Appendix B lists planned projects that have yet to secure funding.

Statewide Transportation Improvement Program (STIP)

Consistent with State and Federal mandates, the Regional STIP the financially constrained portion of the plan. All projects listed as (S), have secured funding and are ready for implementation in 2023, 202343, 2025 or 2026. The projects that have **secured federal or state funding, or have secured local funding and are considered regionally significant,** are the projects that have been forwarded to WSDOT for processing in their four-year STIP.

Regional TIP Development Process

Washington State TIP/STIP Process

Regional TIPs for RTPOs are governed by WAC 468-86-160, for six-year program (calendar years) periods, to be developed cooperatively with local governments, WSDOT and transit operators. The TIPs must be updated at least every two years; traditionally, our region has prepared an annual report.

The member jurisdictions submit their proposals for the upcoming six-year planning period for review by the NEW RTPO. These proposals are required to be consistent with the current Regional Transportation Plan and approved by the RTPO. These projects are screened through the state's online program for any that have funding secured through local, state, and/or federal funding and are forwarded to the state as appropriate for inclusion in their four-year Statewide TIP (STIP) report. The NEW RTPO is responsible for checking consistency of TIP/STIP projects with current RTP goals.

Annual STIP Timeline

Included below is the Annual STIP Timeline:

June 30th	All cities and towns six-year programs adopted
July	Agencies & WSDOT submit projects for inclusion in the STIP & RTPO TIP RTPO assembles regional TIP RTPO presents draft TIP to TAC and TEDD/NEW RTPO Board
July 31st	Adopted City Transportation Programs Due to WSDOT
August	RTPO requests WSDOT review of draft TIP RTPO opens TIP for 30-day public comment period
September 1st	Transit Agencies six-year plans due
September	RTPO TIP adopted at monthly TEDD/NEW RTPO Board Meeting
October	RTPO's TIPs due to WSDOT on same day as October amendment is due
December	WSDOT submits STIP to FHWA and FTA. Counties adopt annual budgets and six-year programs
January	FHWA and FTA approves the STIP
January – October	STIP amendments are processed monthly per established schedule. RTPO TIP amendments are processed as needed.

Local Process

The NEW RTPO begins the development of the Regional TIP in July of each year when local jurisdictions and agencies input their projects into the state's management system. After confirming the submission of the projects into the state's online system, the Local TIPs are then compiled into a comprehensive document. The draft document is taken before the NEW RTPO Technical Advisory Committee for evaluation and modification, as appropriate. TAC will review any modifications and give the document their recommendation. It is then taken before the NEW RTPO Policy Board for review and possible adoption at September meeting.

Regional TIP Amendment Process

If a jurisdiction needs to make an amendment to the RTPO TIP/STIP, the amendment must be communicated with NEW RTPO. If needed NEW RTPO can assist the jurisdiction with amending the project. Amendments should be submitted to the RTPO at least one week prior to the monthly TEDD/NEW RTPO Board Meeting. Amendments will be presented at the open meetings and public is welcome and encouraged to attend. NEW RTPO or the local jurisdiction can forward the project to the Washington State Department of Transportation (WSDOT) per the monthly schedule they provide.

Public Involvement

The members of the NEW RTPO, through TEDD, follow the guidelines for public participation that have been outlined in the Washington State Open Public Meeting Act (OPMA). Each jurisdiction includes public involvement when developing their Local TIPs, prior to submittal for the annual report. The project list is presented at an open meeting and the public is welcome and encouraged to attend.

Regionally Significant Projects

According to Federal Highway Guidelines, regionally significant projects mean a transportation project that are on a facility which serves a regional transportation need (such as access to and from the area outside the region; major activity centers in the region; major planned developments such as new retail malls, sports complexes, employment centers, or transportation terminals), and would normally be included in the modeling of a Metropolitan Planning Area's (MPO) transportation network.

NEW RTPO considers projects regionally significant that demonstrate freight significance, which connects communities, counties, or states and any alteration and addition that increases the capacity of our roads and infrastructure that fosters economic development and provides valuable services to people and goods. At a minimum, this includes all U.S. and State Routes, principal arterial highways that offer a significant alternative to regional highway travel, and major air or rail developments.

Air Quality

The NEW RTPO is not an air quality "non-attainment" area and is not subject to "Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users" or SAFETEA-LU requirements.

Congestion Management

The NEW RTPO is not a Transportation Management Area (TMA) and is not subject to SAFETEA-LU congestion management system requirements.
